DON'T CHASE RUMBLE - CALL US IMMEDIATELY!

Rumble is scared and confused. We don't want him to run into the street and get hit by a car, or move further away from the current search area.

Lost dogs need to rest, find shelter in bad weather, and hide from predators. They seek protection in small spaces under decks, storage sheds, and dense evergreens, as well as, inside doghouses, garages, barns, and other structures. Dogs usually enter backyards while you're asleep, at work, or away on vacation. Many roam around a lot after dark - it's quiet and fewer people are outside. They rip open trash bags and will steal food left outside for other animals. Local dogs often get agitated and bark more when a "strange" dog is nearby.

SEEN RUMBLE? NEW or OLD SIGHTINGS are needed and appreciated.

We need the day, time, street, and nearest cross street, or *exact* location seen.

CALL ASAP - 24 HRS A DAY

PLEASE, leave a message if we're unable to answer your call. Thank you.

If our fliers and signs remain posted, RUMBLE is still missing.
