

LOST DOG

“HOLLY”

PLEASE HELP

FEMALE SHELTYE (Shetland Sheepdog) (small Collie-like dog)
SABLE (GOLDEN TAN) FULL WHITE CHEST, LEGS and PAWS
VERY SMALL 20 LBS SHORT - about knee-high 2 yrs old
HAD a RED COLLAR with tags

DO NOT CHASE

Holly is scared and confused. We don't want her to run into the street and get hit by a car or move further away from the current search zone.
She is not from the area and will *not* find her way home.

Lost dogs need shelter from bad weather and hiding spots from predators.
They seek small spaces under outdoor structures like decks or utility sheds.
They sleep in empty doghouses and will investigate open garages and barns.
They often wander around at night when it's quiet and less people are outside.
They usually enter backyards while you're asleep, at work, or away on vacation.
They tip over trash containers and steal food left outside for other animals.
Resident dogs get agitated and bark more when a "strange" dog is nearby.
